RE: Notice of Filing
COMPANY: Clarkson College
POSITION: Database Engineer
ADDRESS OF WORK SITE: 101 South 42nd Street, Omaha, NE 68131

     This Notice is being provided as a result of and shall serve as Notice pursuant to 20 CFR 656. 10(d), that Clarkson College is filing an Application for Permanent Employment Alien Labor Certification for the following position. The employer intends to permanently employ a foreign national in the job opportunity described below:

     Database Engineer, Clarkson College, 101 South 42nd Street, Omaha, Nebraska 68131. Job duties include: development and maintenance of the organizations databases for ensuring data integrity and security and coordination and development of report and query requests for information contained in the organization's databases. Specific duties will include:

- Serving as the primary writer for all requested reports related to data contained in the organization's databases, which includes:
  - coordinating, developing, and managing reports and queries for data contained in databases;
  - Providing support for all requests for data from the databases; and
  - Providing customer service by reviewing reports for accuracy and usefulness;

- Providing support for student information systems software, which includes:
  - Maintaining an understanding of student information software functions;
  - Providing student information system software training as needed;
  - Troubleshooting user problems utilizing vendor resources to resolved when needed;
  - Implementing upgrades and activating new functions utilizing pre-testing and follow-up with end users after utilization; and
  - Creating and maintaining written procedures and documentation for student information system operations.

- Serving as a backup for the Database Senior Engineer by developing and maintaining relation databases, which includes:
  - Working with the Database Senior Engineer to create and maintain databases;
  - Understanding and complying with best practices in database management;
  - Assisting in the design, implementation, and maintenance of procedures to ensure data is available, secure, and recoverable including appropriate back-up; and
  - Installing vendor supplied software as required;

Requires a Master's of Biomedical Information or Computer Science. Monday through Friday, 7:30 AM to 4:30 PM. $75,774 per year. Persons interested should apply online at www.clarksoncollege.edu/about/employment-opportunities Clarkson College is an Equal Opportunity Employer.

This opening is being posted in connection with the filing of an application for a permanent alien labor certification. Any person may provide documentary evidence bearing on the application to the certifying officer of the U.S. Department of Labor. The Certifying Officer of the Department of Labor may be contacted at: U.S. Department of labor, Employment and Training Administration, Office of Foreign Labor Certification, 200 Constitution Avenue NW, Room N-5311, Washington, DC 20210.
